

Ⓐ Some annual species

Ⓑ Do 2 tree spp? 1 have data on (One shown.)

(Hingert et al. 2018)

Pop. d.H. & Fagus grand.
Seed ripening: Mid May - June

Seed ripening: Sep - Nov (after frost)

Woody Plant Seed handbook

Inside curve shows 'phenology' while outside curve shows growth/reproduction/storage?
(and 'survival' or -really
I guess we're always surviving)
